MOST OF THE STREETS CLEARED,

And a Number of the Refugees Return to Help Rebuild the Place.

THE SOLDIERS COMING HOME TO-DAY.

Betrenchment in the Number of Laborers at Work on the Debris.

Johnstown is beginning to assume its normal appearance, as much as possible after its awful wreck. The Fourteenth Regiment is to be paid off and return home to-day. The force of laborers is being materially reduced.

PROM A STAFF CORRESPONDENT.1

JOHNSTOWN, June 28.-Johnstown will be a good excursion place for many a day to come. Crowds of people are pouring in to see the wreck and run. Mayor Noonan, of St. Louis, was here long enough to shake hands with General Hastings, and then left for Cresson. He will return to-morrow to look over the field and distribute money at his command.

Johnstown is beginning to look like itself oper more. I walked over the greater part of the city this afternoon, and was particularly struck with the work that had been done. I remember when the reporters walked over tops of houses on Main street, but to-day this highway is open and the mud has been cleaned from the pavements. Most of the streets have been cleared of the rubbish, except where they are blockaded by houses, and this is particularly true of some of the roads in Kernville.

The work of cleaning out cellars continues, but the oftener one walks over the field the more he is impressed with the destruction of property. There is work enough to be done here in removing the debris to keep a large force of men occupied all summer.

Many of the people who left the city after the flood are returning. They are looking cheerful and ready to commence rebuilding ISRAEL.

THE RIVER FILLED UP.

A Narrow Channel Left by Filling the Strenm With Cinder.

FFROM A STAFF CORRESPONDENT.1 JOHNSTOWN, June 28 .- I went over to Kernville this afternoon, and met 'Squire Graham, an old citizen. The 'Squire claims that since 1856 the Conemaugh river has been filled up six feet, and this is why the lower part of town is flooded so often. He blames the Cambria Iron Company for filling it up with cinder. The width of the Stony creek, allowed by the borough, is 175 feet 4 inches; of the Little Conemaugh, 110 feet, and yet the 'Squire is told that at one point in the Big Conemaugh, after these two streams have entered into it, the river is only 148 feet wide, and the Cambria Iron Company has narrowed it that much. He thinks they should be compelled to remove it.

rowed it that much. He thinks they should be compelled to remove it.

The dam of the Johnstown Lumber Company, up Stony creek, still stands. The company has made it 18 inches higher, and the booms are filled with lumber. The dam is much deeper. The Horner heirs claim a right to the property, and 'Squire Graham said they proposed to fight the company in the courts. The people are determined to remove all menaces to life and property, and in all probability the dam will have to go.

COUNTING THEIR LOSSES.

Only 600 Members of St. John's Catholic Church Registered

IFROM A STAFF CORRESPONDENT. JOHNSTOWN, June 28 .- Only 600 members of the St. John's Catholic Church have registered so far. The list of dead is 150. The members ship of the church is about 1.500. LAST DAY FOR THE SOLDIERS. Members of the Fourteenth to be Paid and Return To-Day.

[FROM A STAFF CORRESPONDENT,] JOHNSTOWN, June 28.-The Fourteenth Reg-

iment had a dress parade to-night, preparator; to leaving to-morrow, with the exception of three companies. The warrants for their pay, to the amount of \$20,000, have been issued. The regiment will return to Pittsburg with a record for good work that cannot be beaten. The boys have done nobly, and they deserve all the credit.

With the assistance of the companies left,

with the assistance of the companies iers, the local authorities think they can manage to maintain peace and order. The remaining companies do not expect to stay longer than next Wednesday. Colonel Perchment and Dr. Foster will remain until next Wednesday.

RETRENCHMENT ALONG THE LINE. The Force of Laborers Being Daily Consid-

erably Reduced. [FROM A STAFF CORRESPONDENT,]

JOHNSTOWN, June 28.-Cashier Livesy, of the State Treasurer's office, arrived here to-day with about \$75,000 to pay off the laborers an with about \$75,000 to pay on the laborers and workmen in the various departments. The money was issued to the contractors, and they will pay their men to-morrow. The chiefs of the different departments attended to the paying of the men under them.

Retrenchment of the number of men employed has been the order all along the line for some days, and the forces, especially in the department, will be materially reduced after to-morrow.

The Deaths Not Less Than 4,000.

IFRON A STAFF CORRESPONDENT.1 JOHNSTOWN, June 28 .- The work of registering the flood sufferers ceased this evening. It will be impossible to foot up the totals before noon to-morrow, but Messrs. Storx and Kinkead, in charge of the work, estimate that from 16,000 to 17,000 people have been registered, and neither gentleman thinks the loss of life will

JOHNSTOWN June 28,—The local Finance Committee is still receiving some money. Captain Jones turned in \$1,000 to-day, the gift of Carl Wittgenstein, a wealthy iron master of Vienna. In addition to the \$200,000 contributed the committee has received \$12,000. St. John, New Brunswick, sent \$500.

some of the Wards Much Less Affected Thus Others.

IFROM A STAFF CORRESPONDENT. JOHNSTOWN, June 28.—The Board of Inquiry held down the Seventh ward schoolhouse to-day, and they will meet in the Fifth ward to-morrow. About 69 heads of families reported, and the reports show that no lives were lost, neither was much properly destroyed. This ward is up the Stony creek, on high ground. The largest individual loss was placed at \$10.450, for Peter Alt & Sons. Other losses were \$2.450 and \$3,450, but the balance were much smaller amounts.

The local committee, acquainted with the people, estimates the values. The board merely sees that the work is properly done. The question of appeals has not been decided.

CAUSED A MIGHTY KICK.

Objections Raised to Giving Lumber to the

Liquor Desiers. JOHNSTOWN, June 28.—Eleven more of the Chicago houses arrived. They are larger than the others, being 17 by 24 feet, but the committee is yet giving large families a large and small house. The committee on lumber has decided not to issue more than 7,000 feet of lumber to anyone. They have received 24 cars of lumber and shingles, not enough by any means to supply the people. Up to date there have been filled.

Some of the committee objected to giving lumber to the liquor men, and the latter class made a mighty kick. The committee then came to the conclusion to make no discriminations, to save all troubles.

English and Freuch Cookery.

Euglish and Freuch Cockery.

A celebrated French traveler remarked the English have 50 religions and only one sance. This, no doubt, shows ignorance as to religion, but a great deal of truth as regards the sauce, which, probably, was referred to as the very innocent concoction of a white sauce consisting either of some flour, butter and milk, or some bread and milk, both equally tasteless, and making the despair of foreign travelers in this country who are accustomed to good French sauces. The many American travelers going to the Paris Exhibition at this time will no doubt be struck with the difference between fine French cookery and the somewhat monotonous English cookery, and it may be worth while to ask what is the secret of the well-known success of French cookery. This secret is simply the "stock-pot," a preparation of concentrated meat juices enabling the cook to give to all dishes-soups, sauces and entrees—the fine meat flavor which distinguishes refined cookery, from coarse cookery. Many cooks, undoubtedly, know how to prepare stock, but in most cases the quality of such stock is too weak and insipid, and besides, does not keep in anything like warm weather; while, on the contrary, Liebig Company's Extract of Meat, being the finest concentrated meat juice (1 lb. extract equal to 40 lb. best lean meat), keeps for any longth of time, and in any temperature, and enables the cook to obtain the highest perfection in French cookery. The warm season coming on, this may be a useful hint to ladies and housekeepers.—Ladies' Pictorial.

A CLUB CAUSED IT.

That Arrest of Two Alleged Illegal Voters Due to Organization

At a meeting of citizens of the Se ward four days ago a club was formed to the purpose of presecuting all illegal voting at elections. An organization was formed by the selection of Robert J. Hundreds of Dollars. Pronounced Incurable. Cured by Cuticurs Remedies.

My disease (psoriasis) first broke out on my left cheek, spreading across my nose, and almost covering my face. It ran into my eyes, and the physician was afraid I would lose my eyesight altogether. It spread all over my head, and my hair all fell out, until I was entrely baldheaded; it then broke out on my arms and shoulders, until my arms were just one sore. It covered my entire body, my face, head, and shoulders being the worst. The white scabs fell constantly from my head, shoulders, and arms; the skin would thicken and be red and very itchy, and would crack and bleed if scratched. After spending many hundreds of dollars, I was pronounced incurable. I heard of the CUTICUEA REMEDIES, and after using two bottles of CUTICUEA RESOLVENT, I could see a change; and after I had taken four bottles, I was almost cured; and when I had used six bottles of CUTICUEA RESOLVENT and one box of CUTICUEA, and one cake of CUTICUEA SOAP, I was cured of the dreadful disease from which I had suffered for five years. I thought the disease would leave a very deep scar, but the CUTICUEA REMEDIES cured it without any scars. I cannot express with a pen what I suffered before using the CUTICUEA REMEDIES. They saved my life and I feel it my duty to recommend them. My hair is restored as good as ever, and so is my cyesigh. I know of a number of different persons whe have used the CUTICUEA REMEDIES, and all flave received great benefit from their use.

MISS S. LINDENFELSER,

Residing at 3440 Penn avenue, has also been a great sufferer from catarrh. The tenacious secretion that formed ifther nose, and which she was unable to discharge, ulcerated into the bones until the walls of her nose fell in, giving it a flattened appearance. In vain she tried to find some doctor that could cure her of catarrh before this ulceration took place, and thus save her from the disfigurement of her nose that she will now have to carry as long as she lives. Her sense of smell also became entirely destroyed. She had much headache, ringing sounds in her ears and dizziness. As some of the mucus that dropped down from her head lodged in the bronchial tubes of her lungs her breath became very short. After becoming cured at the Catarrh and Dyspepsia Institute, at 323 Penn avenue, she says:

"I wish to tell the people that although I have treated with several physicians for catarrh I never found any relief until I commenced treatment with the physicians of the Catarrh and Dyspepsia Institute, and now I am happy to state that after using their treatment I am entirely cured.
